Design a future financial crime

Brief

Whether we like it or not, crime is a driving force behind a large proportion of technological progress; this is especially true regarding money. In 1817, a burglary at a British dockyard led the government to start a competition challenging locksmiths to invent an unpickable lock. The result was the Chubb detector lock, and it remained unpicked for 33 years. The competition invite creative practitioners to imagine and design a future monetary based crime. A crime which utilises a loophole, a social convention or specific technology.

Schedule

- 20th February 2013---Registration Deadline
- 20th February 2013---Submission Deadline

Submissions

The competition will run in two phases.

- 1st Phase - Initial Idea

Please submit an overview of your initial 'future crime' concept. Preferred format = PDF. Maximum 3 pages communicating the concept and examples of previous work (website or PDF). Send entries to art@chyp.com

- 2nd Phase - Project Development

Shortlisted entrants will receive £500 each to develop their idea and produce a short video. The videos and concepts will be judged during the annual Tomorrow's Transactions forum in London, and prizes will be handed out to the winners.

Jury

- Sandra Alzetta
- Catherine Eagleton
- Gloria Benson
- Nitipak Samsen

Awards

- Shortlisted projects---£500 each for project development.
- 1st prize---£750
- 2nd, 3rd prize---TBC
