d3 HOUSING TOMORROW 2015

DesignLoft Editor · Sunday, January 4th, 2015

ARTICLE VIEWED : d3 HOUSING TOMORROW 2015 times

d3 is an organization committed to advancing innovative positions in architecture, art, and design by providing a collaborative environment for architects, artists, designers, and students from around the world. Our New York-based program of exhibitions, events, and publications is focused on generating dialogue and collaboration across geographic, ideological, and disciplinary boundaries in art and the built environment. Our mission seeks to unearth new approaches to connecting, form, space, and materiality with innovative notions of interiority and exteriority at various scales.

Brief

The d3 Housing Tomorrow competition allows designers freedom to approach their creative process in a scale-appropriate manner, from large-scale master planning endeavors, to individual building concepts, to notions of the interior realm. Although there are no restrictions on site, scale, program, or residential building typology, proposals should carefully address their selected context.

Categories

CATEGORY 1:

Open category that calls for sustainable residential design proposals envisioned for worldwide site locations. All projects will be entered into this category.

SPECIAL MENTION CATEGORIES:

All projects will be eligible for typology-specific special mentions.
